Vehicles are not only stolen for their own sake, but are also trafficked to finance other crimes. They can also be used as bomb carriers or in the perpetration of other crimes like Bank Robberies, Accidents etc. Car registration is seen as a pain to many motor vehicle owners but it is really set up for their own protection and rights. With such numbers of cars in available in Africa, it is vital for the Governments of Africa to have an optimized, efficient and reliable Information Technology base solution to effectively monitor and track the car buy, sell and trade activities within the economy. Based on the identified prevalent trends, the core need of the moment is to digitize the current system in an effective and efficient manner. In Africa, the need is of a new system that is:

- Simple and fast - so that it saves money and time.
- Transparent - so the paid money ends up with the Government and the Insurance
- Security and Trust Oriented:
 - I. The one who paid for the number plate gets the number plate.
 - II. The one who paid for Insurance get insurance.

About Kept as Quiet (Eat)

The popularity of organic foods and the restaurants that serve them has experienced an astronomical increase in recent years. A once niche market is now a burgeoning billion-dollar industry. Though demand is growing, running a food restaurant is not easy. Foods are intrinsically more expensive than processed foods, driving up a restaurateur's costs. Organic foods are also often in short supply. Breakfast organic foods are now made available both in quality and quantity leaving our customers with tasteful experiences which can only be delivered by us. Kept as quiet aims to achieve the status of a premier source of organic breakfast food restaurant both in New Jersey. Our business targets cut across all classes of people, including people with special needs, families, students, couples and single adults. We are dedicated to providing consistently high client satisfaction by rendering excellent service and delicious food at competent prices.

HEALTH SECTOR

Deep Health

Company Information

- ✓ Company Name _____ Deep Health
- ✓ General Industry _____ Health
- ✓ Business Nature _____ Spine Navigation System
- ✓ Company Location _____ Israel

About Deep Health

Over 90% of the 5 million spine surgeries performed annually worldwide are done manually, also known as "freehand". When using freehand technique ~30% of the pedicle screws are misplaced, resulting in inferior clinical outcome. Computerized Navigation & Robotics Systems have a proven clinical benefit but are used in less than 10% of spine surgeries at large hospitals and primarily for complex surgeries, due to their cost and complexity.

Deep Health makes surgery planning and surgery navigation accessible to a significantly wider population of surgeons and patients. We do that by replacing the CT scanner and navigation system with a single unit, a high-resolution optical 3D scanner, which is compact, affordable and radiation-free.

Transformative Rehabilitation Center

Company Information

- ✓ Company Name _____ Transformative Rehabilitation Center
- ✓ General Industry _____ Health
- ✓ Business Nature _____ Drug Rehabilitation
- ✓ Company Location _____ Nigeria

About Transformative Rehabilitation Center

According to researchers and economists South Africa has the highest rates of Drug addicts within its community. There are several types of addicts but majority are categorized as either alcoholics, drug, food and gambling addicts. Though these issues can be seen in several parts of the country, but majority of these issues can be seen within the highest performing province of South Africa, named Gauteng. Many associate the reason behind these issues with the fact of unemployment and high crime rates as well as rising domestic abuse. Though multiple rehabilitation centers can be seen within the boundaries of Gauteng but as per research the outcome each center demonstrates is less than 3% total, the reason behind which can be attributed to the poor and careless quality of services they offer. Keeping this point and the need of South Asian citizens in mind, we aim to introduce a rehabilitation center that will not only aim to cater the addicts who are in need but will also provide them with best caring services that will ensure a successful treatment. The name of this new and innovative rehabilitation center will be “Transformative Rehabilitation Center”.

Make a Strong Identity

About Repculture

The Social Media Platforms of today, indeed, have provided the individual users with a platform to place and boost their voice but it still lacks the communication of the core cultural values and norms that support their perceptions and voice. Users indeed support each other perceptions but fail to create an identity based on their heritage.

There are billions of people spread throughout the Globe. Each part of a unique and beautiful culture tree. A beauty that needs to have a voice and identity. To unite together we need to understand one another. There are multiple blogs, articles, news and other online communication platforms.

Based on this need for identity and culture communication a social media platform “RepCultures” was introduced. The platform aims to provide the users and the community with an opportunity to display the beauty of their culture, values and unique traditions. This an opportunity for you to **MAKE A UNIQUE IDENTITY.**

About Rock Steady Tri-state Boxing

Parkinson's disease is a degenerative movement disorder which can cause deterioration of motor skills, balance, speech and sensory function. The Parkinson's disease Foundation estimates there are more than 1 million people in the United States diagnosed with Parkinson's disease, and more than 60,000 people are diagnosed each year. Rock Steady Boxing Tri-Cities is the first gym in the country dedicated to the fight against Parkinson's.

In our gym, exercises are largely adapted from boxing drills. Boxers condition for optimal agility, speed, muscular endurance, accuracy, hand-eye coordination, footwork and overall strength to defend against and overcome opponents. At RSBTC, Parkinson's disease is the opponent.
